

# INDEPENDENT LIMITED ASSURANCE STATEMENT

TO: The Stakeholders of Peel Media Ltd

## Scope and Objectives

WSP was engaged by Peel Media Ltd to provide limited assurance in respect of the Net Zero Carbon performance claims for a number of properties. This statement is limited to the assurance over the accuracy of the data and the location listed below:

### Garage

*MediaCityUK, Salford Quays, Manchester M50 2EQ*

Scope: Whole Building

We planned and performed our work in accordance with the International Standard on Assurance Engagements (ISAE) 3000 revised, Assurance Engagements Other than Audits or Reviews of Historical Financial Information (effective for assurance reports dated on or after 15 December 2015).

Our work includes specified data for the period 1<sup>st</sup> April 2019 to 31<sup>st</sup> March 2020.

## Limitations and Exclusions

Excluded from the scope of work is any verification of information relating to activities outside the defined reporting period and scope. This limited assurance engagement relies on a risk-based sample of the data and the associated limitations that this entails. This independent statement should not be relied upon to detect all errors, omissions or misstatements that may exist.

## Responsibilities

The preparation and presentation of the net zero carbon information is the sole responsibility of the management of Peel Media Ltd. WSP was not involved in the drafting of the report. Our responsibilities were to:

- Obtain limited assurance about whether the information has been appropriately and accurately prepared;
- Form an independent conclusion based on the assurance procedures performed and evidence obtained; and
- Report our conclusions to Peel Media Ltd.

## Summary of Work Performed

As part of the independent verification, WSP undertook:

- Interviews with relevant personnel of Peel Media Ltd and their consultants responsible for carbon emissions accounting data;
- A review of the full-year building energy data (1 April 2019 to 31 March 2020), calculations used, aggregations and emissions factors applied;
- Assessed the robustness of the data management systems in place and internal audit checks;
- A check of the GHG calculations against UKGBC guidance;

- A review of the carbon offsetting schemes selected and telephone interview with the carbon offsetting scheme administrators.

### **Conclusion**

On the basis of the work conducted nothing came to our attention to suggest that the net zero carbon performance stated in the Operational Net Zero Carbon report for **the Garage**:

- Is not prepared in accordance with Peel Media Ltd.'s internal methodologies; and
- Is not materially correct and a fair representation of the net zero carbon assertion.

It is recommended that future Net-Zero Carbon reporting includes the previous year figures to indicate the energy saved through the opportunities that have been implemented and to provide year on year comparison.

### **Statement of Independence, Integrity and Competence**

WSP is an independent professional services company. Our assurance team has the appropriate experience and competency in conducting verification over environmental, social, ethical and health and safety information, systems and processes.

WSP has a Quality Management System (QMS) which is certified to BS ISO 9001:2015 under which all our work is managed. WSP has also implemented a Code of Conduct which commits all our staff to abide by ethical principles in our business dealings with clients, shareholders, employees and suppliers. The code provides guidance and a framework for our actions and behaviours with respect to our corporate obligations as well as our business activities.

Rachel Jones

Technical Director

Manchester, September 2020

### Operational Energy Net Zero Carbon Report

# MediaCityUK

Dates	01/04/2019 to 31/03/2020
Verified by	WSP UK Ltd
Building location	Garage, MediaCityUK, Salford Quays, Manchester, M50 2EQ
Building type	Multi-storey car park
Building description	A 11-storey non-domestic multi-storey car park incorporating retail units
Energy scope	Whole Building
Assessed Net Lettable Area (m <sup>2</sup> , equivalent to 675,477 sq ft )	62,754
% of Total Building Net Lettable Area	100%
Emission Factors	UK 2019, Location Based
Data Sources	Verified energy consumption data

Energy	This year	
	kWh	kWh/m <sup>2</sup>
Total annual energy consumption (ex. diesel)	2,088,790	33
Total annual electricity consumption	2,088,790	33
Total annual gas consumption	-	-
Total annual diesel consumption (litres)	-	-
Total annual coolth imported	-	-
Total annual heat imported	-	-
Total annual renewable electricity generation	0	-

Carbon	tCO <sub>2</sub> e	kg CO <sub>2</sub> e/m <sup>2</sup>
Total annual indirect CO <sub>2</sub> e from imported electricity	534	9
Total annual direct CO <sub>2</sub> e from on-site fuel combustion gas	-	-
" " diesel	-	0
Total annual indirect CO <sub>2</sub> e from heat imported	-	0
Total annual indirect CO <sub>2</sub> e from electricity used to create coolth	-	0
Total annual displaced CO <sub>2</sub> e from electricity generated on-site	-	0
CO <sub>2</sub> e savings achieved in report year from efficiency investments	43	1
Total annual displaced CO <sub>2</sub> e from offsets	534	9
Total annual net CO <sub>2</sub> e emissions	0	

### Offsets

Amount and type of offsets and framework used	534 tCO <sub>2</sub> e offsets purchased from Carbon Footprint Ltd for UK Tree Planting (NW) + Protecting the Amazon
Expected verification processes	The Verified Carbon Standard (VCS)
Cost per tonne CO <sub>2</sub> e	£ 9.25

### Efficiency investments made in report year

	Costs	Annual Saving
Investments in efficiency projects	£ 470	£ 16,878

for CO<sub>2</sub> saved, see above under "Carbon"
