Theoretical Visibility of 20m high
Radio Communications Tower

- NOTES:
1. Zone of Theoretical Visibility (ZTV) has been generated using Ordnance Survey Terrain 50 digital terrain model, which does not take into account the screening effects of vegetation, buildings or other structures.
 2. ZTV calculation has allowed for curvature of the earth's surface.
 3. ZTV has been generated based upon an observer eye height of 2m above ground level.

Beaw Field Wind Farm
