Subject: FW: NT12001 Private Water Supplies

Dear Rachel

I have checked our Private Water Supply register and can confirm there are no known supplies in this area.

Regards

Subject: FW: NT12001 Private Water Supplies

Can you have a look at this one please?

Thanks
Jacqueline

Subject: NT12001 Private Water Supplies

Good morning

Could you please provide me with the below information for private water supplies within 5km of the proposed Beaw Field Wind Farm Site as shown in the attached drawings. A central grid reference for the site is HU 50872 81872 (easting: 450872, northing: 1181872).

- Type of the water supply (groundwater/ surface water)
- Grid reference for the source of the water supply
- Use of water supply (domestic/commercial)
- The volume/rate of water abstraction
- The current status of the water supply (active/inactive)

Thank you

Rachel
